

OXEAN™

About OXEAN™

OXEAN™ Inflatables is dedicated to the manufacture of high quality PVC rigid inflatable boats. We are committed to exceed customer expectations and provide an international service network.

OXEAN™ is a mixture of the best aluminum hull construction and the best PVC fabric in the market today. Each OXEAN™ is built with the highest standards worldwide to deliver an exceptional value. Our ISO 9001 certification provided by Bureau Veritas, CE certification and ISO 6185 demonstrate our commitment to deliver the most reliable rigid inflatable boats.

Our philosophy is not just about building inflatable boats; it is about being passionate while doing it. We invite you to discover the OXEAN™ way.

REASONS FOR CHOOSING OXEAN INFLATABLES

Materials: We use the most reliable materials to build every OXEAN™. Every aluminum boat is made with marine grade aluminum (5000 Series) and the well-recognized Valmex® PVC tubes from the German Company Melher Technologies.

Quality: Our production process is certified with the highest industry standards. At OXEAN™, we receive third party audits periodically to guarantee the quality we deliver on each of our aluminum inflatable boats. We also invest in all our manufacturing team to assure that the best practices are followed when building every OXEAN™. As an example, our welders are certified according to the American Welding Society (AWS) standards to achieve superior quality in every single unit.

Powder Coating: At OXEAN™, we use an **eco-friendly** advanced powder coating technology (ROHS Compliant) on all our aluminum boats to reach durable and high quality finishes. This advanced technology also allows us to increase protection against corrosion according to several researches and studies of the **American Society for Testing Materials (ASTM) International Standards**.

Environment: We care about the environment and understand our responsibility to help create a better future. For this reason, our materials and manufacturing processes are **eco-friendly** alternatives not only for the community but for our OXEAN™ teammates. We demonstrate this by being compliant with regulations and beyond, using superior technologies and adjusting our manufacturing processes, all driven by a continuous improvement culture.

Service: OXEAN™ inflatables is proud to have a first-class international dealer network with the technical capabilities and commitment to serve you throughout the life of your OXEAN™ boat. To find your local partner please check the Where to Buy section or contact us at info@oxeaninflatables.com

ALUMA

ULTRA

ALUMAX

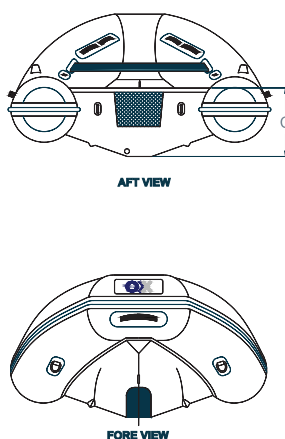

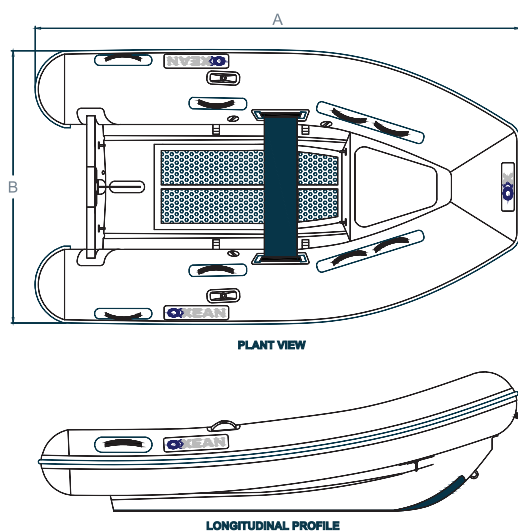

ALUMA

Sporty yet rugged, the Aluma features an aluminum hull that makes it the perfect all-purpose tender. Its open layout provides ample space for both transporting provisions and zipping the family to shore.

Built to exceptional quality standards, the Aluma incorporates a unique hull design that cuts through chop and wakes without pounding. This minimizes spray and maintains stability for the comfort and safety of passengers.

Its durable aluminum hull resists abrasions for worry-free trips through shallow coves or to a quiet beach. The Aluma is a versatile boat equally suited for both adventurous exploring and leisurely shoreline cruising.

	OVERALL LENGTH (A)	OVERALL BEAM (B)	WEIGHT (APPROX)	TUBE DIAMETER	PERSON CAPACITY	MAX HP	SHAFT LENGTH (C)
260	8'5" / 2.56m	4'9" / 1.45m	73 lbs / 33 kg	16" / 0.41m	4	6	15" / 38,1cm
275	9'1" / 2.76m	4'9" / 1.45m	79 lbs / 36 kg	16" / 0.41m	4	10	15" / 38,1cm
290	9'6" / 2.90m	5'6" / 1.68m	95 lbs / 43 kg	17" / 0.43m	5	15	15" / 38,1cm
320	10'6" / 3.19m	5'6" / 1.68m	117 lbs / 53 kg	17" / 0.43m	5	20	15" / 38,1cm
350	11'6" / 3.50m	5'7" / 1.70m	172 lbs / 78 kg	17" / 0.43m	6	30	20" / 50,8cm

Standard Equipment

- Powder Coated Marine Grade Aluminum Hull
- Aluminum Bow Eye
- Bow Handle
- 3 Aluminum Davit Lifting Rings (Bow locker version has 4)
- SS D-rings for Towing (260, 275, 290 & 320)
- 2 Stern Aluminum Towing Eyes - (290 & 320)
- Aluminum Tie Down and Towing Rings - (350)
- Keel Protector
- Aluminum Removable Seat with SEADEK® EVA Foam
- Oars (Telescopic Aluminum Paddles) (260, 275, 290 & 320)
- Oarlocks - (260, 275, 290 & 320)
- Paddles (Fixed Aluminum Paddles) (350)
- Single Rub Rail
- Valmex® PVC tube fabric with Welded Seams
- SEADEK® EVA foam non-skid floor
- Hand Pump & Repair Kit

Optional Equipment

- Dinghy Cover 
- Dinghy Chaps 
- Chocks
- Bow Locker*
- 6 gal. Portable Fuel Tank (Fits in bow lockers of 290, 320 & 350)
- Bow Cushion (Requires Bow Locker Option)
- Fiberglass console (350)
- Jockey Seat (One Person) (350)
- Jockey Seat (Two People) (350)
- Rear Seat with Storage (350)

Additional weight (approx): 5 Kgs / 11 lbs

Sunbrella® Dinghy Cover

Sunbrella® Dinghy Chaps

A portable fuel tank can be fitted in optional Bow Locker.

*Bow Cushion as optional

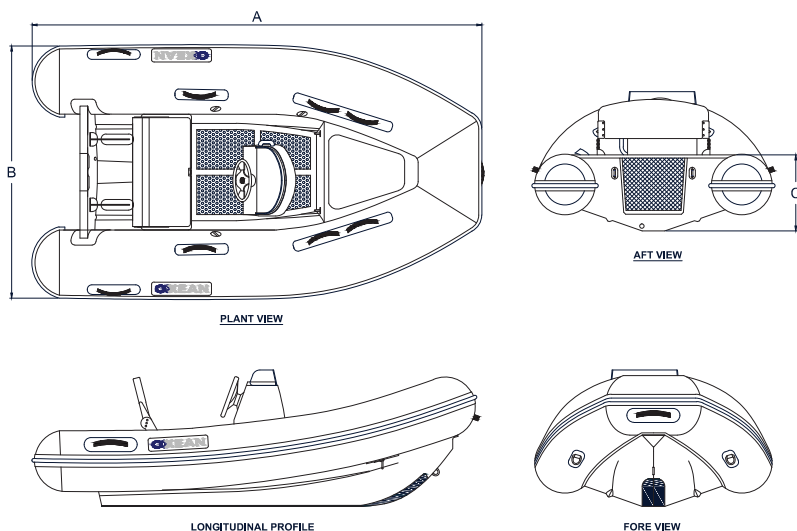

ALUMAX

The stylish Alumax features a sport console for comfortable handling, plus ample seating and storage for guests and supplies. Built to the highest quality, this multipurpose Rigid Inflatable Boat is ideal for daily use. Whether the schedule includes fishing, snorkeling, sightseeing or cruising to the marina for supplies, the Alumax is always ready.

The dependable Alumax incorporates a lightweight aluminum hull, making it a versatile boat. It works well with smaller lifting davits, and is easy to drag onto the beach during day trips.

Its design enables the use of smaller outboards, for better fuel economy without sacrificing speed. Though lightweight, the Alumax's durable aluminum hull and stable platform empower owners to navigate along shorelines or shallow areas safely and with confidence.

	OVERALL LENGTH (A)	OVERALL BEAM (B)	WEIGHT (APPROX)	TUBE DIAMETER	PERSON CAPACITY	MAX HP	SHAFT LENGTH (C)
290	9'6" / 2.90m	5'6" / 1.68m	236 lbs / 107 kg	17" / 0.43m	5	25	20" / 50,8cm
320	10'6" / 3.19m	5'6" / 1.68m	255 lbs / 116 kg	17" / 0.43m	5	25	20" / 50,8cm
350	11'6" / 3.50m	5'7" / 1.70m	284 lbs / 129 kg	17" / 0.43m	5	30	20" / 50,8cm

Standard Equipment

INCLUDES CONSOLES AND SEATS (RIGGED)

Sunbrella® Dinghy Cover

Sunbrella® Dinghy Chaps

A portable fuel tank can be fitted in the bow Locker.

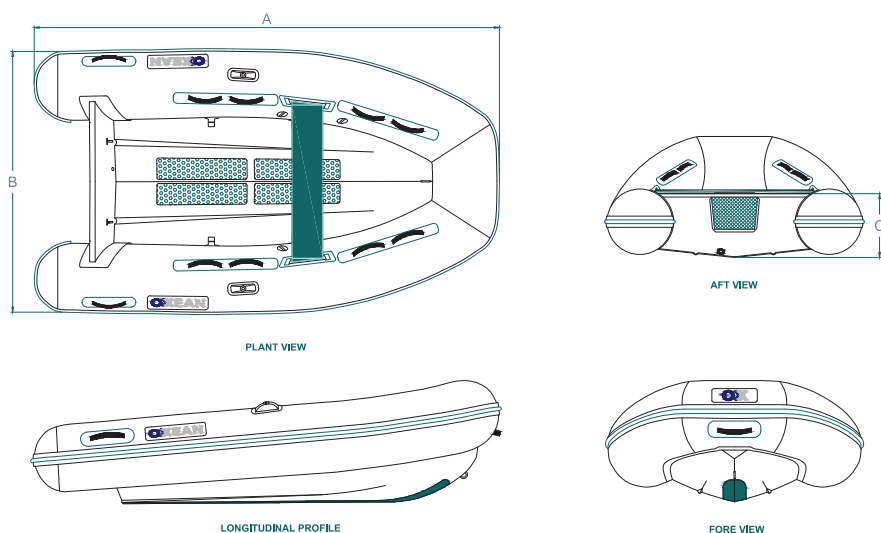

ULTRA

Light and easy to maneuver, the Oxcean Ultra has generous interior space, the most of any Rigid Inflatable Boat in its class, to hold plenty of provisions or gear. Its durable aluminum hull provides peace of mind when navigating through shallow, unfamiliar waters. This dependable boat is robustly designed to enable owners to explore secluded bays.

Providing the ultimate in portability, the aluminum hull Oxcean Ultra is ready for any adventure. This exceptionally lightweight open tender offers a spacious interior and fits easily on deck. Its versatility makes it the perfect companion for smaller sailboats.

The compact Oxcean Ultra incorporates the same quality construction as other Oxcean models. The rowing seat and handles on the tubes help transport passengers comfortably and safely.
